Proposed Neighbourhood Green Space at Hayslan Fields Malvern

Please use the space below to make comments on this part of the Neighbourhood Plan.

I strongly support the the proposed designation of Hayslan Fields as a Neighbourhood Green Space.

This proposal is in agreement with the recently adopted SWDP (2016) and the recommendation of the Inspector's report. I am not aware that any of the pertinent circumstances have materially changed since 2016.

The Fields represent a rare and important community amenity. They offer a valuable natural resource providing a habit for local wild life. They form part of an extended 'green corridor' that has attracted some rare birds (Wax Wings) to the area. The most significant point about the Fields is that they are relatively unmanaged as compared to the other open green spaces in the Malverns. As has been recognised nationally, this provides a unique environment for a huge number of species.

The Fields also provide a much needed community resource. They are one of the few areas locally that off a view of the Malvern Hills and are accessible by people with mobility issues being reactively flat. Loss of this amenity would constitute a degradation the quality of life of local residents. I have a view of part of the Fields and can attest to their constant use by local residents.

In a wider sense the Fields also contribute the the attractiveness and hence prosperity of The Malverns and its designation as an Area of Outstanding Natural Beauty.

Please use a separate form for each representation.
