---

---

---

**Considerations** How to ensure that care and support for older people is sustained and developed as the population continues to age. Working in partnerships with other parishes and the statutory authorities is likely to be helpful.

How to minimise social isolation. The number of single person households is likely to increase as the population ages.

How to sustain and develop transport services particularly for the 5% with no access to a car or van.

How to ensure that deprived households have access to supporting services and benefits. Promotion of the CAB Community Liaison Volunteers may be helpful.
