Planning Ref: M/23/01711/OUT

17 January 2024

Dear Sir / Madam

Land At (Os 7500 5952), Berrow Green Road, Martley

Planning Application 2301711

1.0 Introduction

- 1.1 Thank you for consulting NHS Herefordshire and Worcestershire on the above planning application.
- 1.2 I refer to the above planning application and advise that, further to a review of the applicant's submission, and concurrent with a refresh of the ICS Estates Strategy and a more strategic view of developments, the following comments are with regard to the primary healthcare provision on behalf of Herefordshire & Worcestershire Integrated Care Board (ICB).

2.0 Existing Healthcare Position Proximate to the Planning Application Site

- 2.1 The proposed development will be likely to have an impact on the NHS funding programme for the delivery of primary healthcare provision within this area and specifically within the health catchment of the development. Herefordshire and Worcestershire ICB would therefore expect these impacts to be fully assessed and mitigated.

3.0 Review of Planning Application

- 3.1 A Healthcare Impact Assessment (HIA) has been prepared by Herefordshire and Worcestershire ICB to provide the basis for a developer contribution towards capital funding to increase capacity within the GP Catchment Area.

4.0 Assessment of Development Impact on Existing Healthcare Provision

- 4.1 The development could generate approximately 132 residents and subsequently increase demand upon existing services.

4.2 The development would have an impact on primary healthcare provision in the area and the proposed development must therefore, in order to be considered under the 'presumption in favour of sustainable development' advocated in the National Planning Policy Framework, provide appropriate levels of mitigation.

5.0 Healthcare Needs Arising From the Proposed Development

5.1 The intention of Herefordshire and Worcestershire ICB is to promote Primary Healthcare Hubs with coordinated mixed professionals. This is encapsulated in the strategy document: The NHS Five Year Forward View and the Fuller Stocktake Report: Next Steps for Integrating Primary Care.

5.2 The development would give rise to a need for improvements to capacity, in line with emerging ICB estates strategy, by way of new and additional premises or infrastructure, extension to existing premises, or improved digital infrastructure and telehealth facilities.

5.3 This housing development falls within the boundary of a practice which is a member of the Droitwich and Ombersley and The Rurals Primary Care Network (PCN) and, as such, a number of services for these patients may be provided elsewhere within the PCN. The ICB would therefore wish to secure the funding for the Droitwich and Ombersley and The Rurals PCN for the patients within this vicinity.

5.4 The table below provides the Capital Cost Calculation of additional primary healthcare services relating to the development proposal.

Primary Care Network	Additional Population Growth (55 dwellings) ¹	Floorspace required to meet growth (m ²) ²	Capital required to create additional floor space (£) ³
Droitwich & Ombersley & The Rurals PCN	132	9.6	38,400

Notes:

1. Calculated using an average household size of 2.4 taken from the 2021 Census: Rooms, bedrooms and central heating, local authorities in England and Wales (rounded to the nearest whole number)
2. Based on 120m² per 1750 patients (this is an average list size for a single GP). Space requirement aligned to DH guidance within "Health Building Note 11-01: facilities for Primary and Community Care Services"
3. Based on standard m² cost multiplier for primary healthcare in the Midlands and East from the BCIS Public Sector Q3 2015 price & cost Index, adjusted for professional fees, fit out and contingencies budget (£4,000/m²).

5.5 A developer contribution will be required to mitigate the impacts of this proposal. Herefordshire and Worcestershire ICB calculates the level of contribution required in this instance directly relating to the number of dwellings to be **£38,400**. Payment should be made before the development commences.

5.6 Herefordshire and Worcestershire ICB therefore requests that this sum be secured through a planning obligation linked to any grant of planning permission, in the form of a Section 106 planning obligation.

6.0 Conclusions

6.1 In its capacity as the primary healthcare commissioner, Herefordshire and Worcestershire ICB has identified that the development will give rise to a need for

additional primary healthcare provision to mitigate impacts arising from the development.

- 6.2 The capital required through developer contribution would form a proportion of the required funding for the provision of capacity to absorb the patient growth generated by this development.
- 6.3 Assuming the above is considered in conjunction with the current application process, Herefordshire and Worcestershire ICB would not wish to raise an objection to the proposed development. Otherwise the Local Planning Authority may wish to review the development's sustainability if such impacts are not satisfactorily mitigated.
- 6.4 The terms set out above are those that Herefordshire and Worcestershire ICB deem appropriate having regard to the formulated needs arising from the development.
- 6.5 Herefordshire and Worcestershire ICB is satisfied that the basis and value of the developer contribution sought is consistent with the policy and tests for imposing planning obligations set out in the National Planning Policy Framework (NPPF).
- 6.6 Herefordshire and Worcestershire ICB looks forward to working with the applicant and the Council to satisfactorily address the issues raised in this consultation response.

Additional Comments from Local GP Practices:

The practices have commented that they will find it a challenge to accommodate additional patients without the provision of additional space.

Yours faithfully

Jo Hall
Primary Care Commissioning Manager
