Band D (%)	16	18
Band E (%)	14	32
Band F (%)	10	18
Band G (%)	6	9
Band H (%)	1	0

Interpretation of the Data – Hanley

This supplementary document explores some of the underlying data from the profile and links it to the data at a district level.

Precept In 2014/15 the average parish precept in Malvern Hills District was £43.66 per household and the range from £100.42 to £1.53. The precept for Hanley was £16.53 the 46th largest out of 53.

Population Hanley is the 45th largest parish in Malvern Hills. Between 2001 and 2011 the population decreased by 3%, the total district growth was 3.4%. This does not take into account any housing developments that have taken place since 2011 or any in the pipeline.

Households (dwellings with households) The number of households has increased from 111 to 121. The declining population has contributed to the size of households decreasing from 2.59 persons to 2.30. The number of single person households has increased by 89% from 18 to 34 (28% of all households). 41% of single person households are single pensioner households; this has increased by 8% from 13 to 14 in 2011.

Older people The number of persons aged 60 and over has increased by 59% from 56 to 89. Persons aged 75 and over have increased by 100% from 10 to 20. The population has aged rapidly and that trend is likely to continue.

Children The number of persons aged 0 to 15 has decreased by 37% from 65 to 41. This downward trend is common to two thirds of parishes.

Deprivation Housing or Council Tax benefit and JSA claimants are lower than the district average.

Cars and vans The number of households with no access to a car/van has decreased from 10 to 6 but this still means that 5% of households rely on other means of transportation.

Health The percentage of the population reporting good or very good health in each parish ranges from 91% to 75%. In Hanley it is 81% but is likely to worsen as the population ages.

Considerations How to ensure that care and support for older people is sustained and developed as the population continues to age. Working in partnerships with other parishes and the statutory authorities is likely to be particularly helpful for smaller parishes such as Hanley.

How to minimise social isolation as the number of single person households increases.

How to sustain and develop public transport services particularly for the 5% with no access to a car or van.

How to ensure that deprived households have access to supporting services and benefits. Promotion of the CAB Community Liaison Volunteers may be helpful.
