Band G (%)	6	7
Band H (%)	1	3

Interpretation of the Data – Stanford with Orleton

This supplementary document explores some of the underlying data from the profile and links it to the data at a district level.

Precept	In 2014/15 the average parish precept in Malvern Hills District was £43.66 per household and the range from £100.42 to £1.53. The precept for Stanford with Orleton was £1.54 the lowest out of 53.
Population	Stanford with Orleton is the 4th smallest parish. Between 2001 and 2011 the population grew by 11%, significantly more than the total district growth of 3.4%.
Households (dwellings with residents)	The number of households has increased from 53 to 65. Despite the increased population, the size of households decreasing from 2.70 persons to 2.46. The number of single person households has increased from 0 to 12 (18% of all households). 33% of single person households are single pensioner households, this has increased from 0 to 4 in 2011.
Older people	The number of persons aged 60 and over has increased by 62% from 29 to 47. Persons aged 75 and over have increased by 40% from 10 to 14. The population has aged rapidly and that trend is set to continue.
Children	The number of persons aged 0 to 15 has increased by 50% (2 nd highest in the District) from 18 to 27. This upward trend is common to only one third of parishes.
Deprivation	Housing or Council Tax benefit and JSA claimants are also lower than the District average.
Cars and vans	The number of households with no access to a car/van has remained at 3 but this still means that 5% of households rely on other means of transportation.
Health	The percentage of the population reporting good or very good health in each parish ranges from 91% to 75%. In Stanford with Orleton it is 84% but the number of people reporting that they are healthy will likely reduce as the population ages.
Considerations	How to ensure that care and support for older people is sustained and developed as the population continues to age. Working in partnerships with other parishes and the statutory authorities is likely to be helpful particularly for very small parishes such as Stanford with Orleton. How to minimise social isolation as the number of single person households increases. How to sustain and develop public transport services particularly for the 5% with no access to a car or van.

How to ensure that deprived households have access to supporting services and benefits. Promotion of the CAB Community Liaison Volunteers may be helpful.
